Abdurrahman Hakim Makarim

South Tangerang, Indonesia | 081281904329 | abdrhakimmkrm25@gmail.com | https://www.linkedin.com/in/abdrhakimm/ | https://github.com/Furohito | https://hakim-neon.vercel.app/

Informatics student with foundational experience in developing Laravel and React-based applications, including dashboards, CRUD functionality, API integration, low code level using Python for AI and image and computer graphics processing.

EDUCATION

Pembangunan Jaya University **2023 – Present (Expected 2027)**
Informatics Major
Current Semester: 7 | GPA: 3.68/4.00

SKILLS

- **Web:** JavaScript, Laravel, React, HTML, CSS, Bootstrap
- **Backend:** MySQL, RESTful APIs, CRUD, PHP
- **Tools:** Git, GitHub, Agile (Scrum), VS Code
- **Languages:** English (Professional), Indonesian (Native)

EXPERIENCE

Technical Assistant – Faculty Research Project December, 2025
Pembangunan Jaya University, South Tangerang
Developed a web-based data management dashboard using React.js with CRUD functionality and data export features. Assisted in system testing and data validation to support faculty research activities.

National Finalist – P2MW (Student Entrepreneurship Program) July – November, 2025
Tidar University, Magelang
Contributed to early-stage development of responsive WordPress templates using Elementor and supported MVP feature planning and basic UI/UX standardization for a digital business initiative.

PROJECTS

Typing Practice Application (Speedtyping) **2025**
Built a React-based web application to measure typing speed (WPM) and accuracy, utilizing React Hooks for efficient state management and real-time user feedback.

LabAccess (Web-Based Laboratory Booking System) **2024**
Developed LabAccess, a Laravel-based web application for managing laboratory reservations and borrowing processes in educational environments. Implemented features including laboratory booking, schedule management, device availability monitoring, and online loan request processing.

CERTIFICATION

- Introduction to Databases – Meta (2024) – SQL & relational database fundamentals
- Relational Database Design – University of Colorado Boulder (2024) – ERD & database normalization
- Generative AI: Prompt Engineering Basics – IBM (2024) – AI-assisted development basics
